### **Culminating Project Statement of Integrity**

I understand that intellectual integrity is the cornerstone of being a self-directed learner.

While completing all parts of my Culminating Project, I understand that all work will be the result of my own efforts, unless it is appropriate to give credit to sources or others who have contributed to my project.

I understand that my finished portfolio needs to represent the complete project as approved in my proposal. Any significant changes to my project (significance being determined by my teacher mentor and/or culminating project site coordinator) must be submitted in writing at least 30 days prior to the portfolio due date. Revised projects need to be approved to ensure the revisions still meet the requirements for a quality project that includes a learning stretch and a connection or benefit to the community.

I agree to present an honest account of all Culminating Project activities, including artifacts, records of community advisor meetings and documentation of a minimum of 20 hours recorded on the time log.

I understand that falsifying any aspect of my work related to the Culminating Project will result in me needing to submit completely new, verifiably original work in order to receive a Bellingham School District high school diploma AND result in the loss of privilege to participate in commencement ceremonies.
